

I STRONGLY oppose the fact that governor Kotech is trying to move the election date for the parts of chapter 1, Oregon Laws 2025 (special session), referred to the people by Referendum Petition 2026-302, to the primary election held on May 19, 2026. This clearly shows her pushing her own agenda trying to usurp the will of the people and she needs to be held accountable. The residents of Oregon have already done the requirements to get this onto the November ballot, and this should not be changed.
