2026-302

Measure, Appointment or  
Topic: SB1599

We isn't Oregonian already get taxed on top of taxed. I am a small business owner that is already paying more on taxes than what any one should be paying adding this gas taxes is only going to hurt businesses even further causing us to not be able to competitively pay our employees or possibly get work because of other people not being able to afford to hire us to do jobs . I feel like accountability needs to be taken from the Democrats in a significant audit needs to be done against all of these accounts that are supposedly short on money or over on money. Sounds like maybe people in office need to not get paid as much or you need to reassess what you were paying hourly there's so many times that you just see Worker standing around not doing anything but yet they are getting paid a premium wage causing this deficit every year we get added on a new tax, which is just further hurting Americans. It is not helping us at all. You need to focus on the issues that actually matter and get Oregon to a spot where people actually want to live instead of forcing businesses to move out of state.
