

Submitter: Susan Weinstein

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB4046

I oppose HB 4046. We need to protect the wisdom of the 1980 Ballot Measure Law. It will not benefit us to have an industry-funded "study".

Unfortunately, greed seems to be the motivator; please, particularly for the sake of our children and grandchildren

DO NOT support this bill. Thank you.
