Measure, Appointment or Topic: SB1598

It appears that legislators are just incapable of allowing parents to make medical decisions without the interference of state policy makers regarding vaccines, vaccinations that Congress in 1986 recognized as "unavoidably unsafe". Once again Oregon legislators want to go back to the dark ages of vaccine mandates, one-size-fits-all vaccinations for children.

SB1598 further shreds what little trust the public has for Oregon Government top down diktats.

Good work -- Senator Reynolds, Representative Nosse, Senator Patterson, Campos, Frederick, Gelser Blouin, Representative Nathanson, Pham H---you are clueless as ever.

Aside from what I have already expressed, here are the major points:

Unchecked Authority: Grants broad power to unelected public health officials to make decisions affecting all of us, without further legislation or public debate.

Automatic Mandates: Clears the way for vaccine requirements to affect access to schools — without another legislative vote.

Forced Compliance: Invokes statewide one-size-fits-all medical orders without individual consent.

Taxpayer-Funded Mandates: Compels insurance companies and taxpayer-supported public programs to pay in full for vaccines and health services.

Overrides Doctors: Removes ability of doctors to make decisions in the best interest of their patients.

Strongly opposed to SB1598.  
Always respectfully submitted,  
Michael Framson
