Measure, Appointment or SB1599
Topic:

To the joint special committee on Referendum Petition,

There is a process that has been established through our legislative branches. To manipulate this to benefit a potential outcome is unacceptable. I believe that passing this would show how out of balance the states representation between parties has gotten and that our governor and the super majority is willing to use this to defied fair and balanced discussion on the overreach of the gas tax.

Vote NO! This is not reasonable! Start listening to your constituents and representing the people of Oregon and not the Unions that are padding people's pockets and war chest!
