Measure, Appointment or  
Topic: SB1599

I absolutely oppose putting this on the ballot in May. This should go through a normal election process should not be rushed through so they can change it and try to push something else and it should be put through at the same time as the governor's election. I hope she does not get elected again and I hope this does not pass. It does not need to be on the ballot right now. We should be waiting until November. The way is the normal election cycle works. As a mother, a wife and an employee of a school district in my town I can tell you this governor has screwed us over more than once and now we are looking at getting laid off because of more financial issues. I call for our budget to be audited for education for the whole state as well as use of money for everything else. There's no way anyone in this state could ever afford the kind of taxes she's trying to push through.
