Topic: SB1599

I signed and helped circulate a petition that explicitly named the November 2026 General Election.

Moving the vote undermines voter intent and public trust.

Major policy decisions should be decided when the most voters are participating.

This is a critical moment. If the Legislature succeeds here, it sets a dangerous precedent—that citizen-led referendums can be altered once politicians don't like the outcome.

Vote No on SB1599!
