Committee: Joint Special Committee On Referendum Petition
2026-302
Measure, Appointment or
Topic: SB1599

Not that I honestly feel as though my words will actually matter in today's society. But for the ones trying to change when the people get to vote. It's quite obviously a political move. You don't want your name next to this horrible bill in the November election. I tend to think that politicians believe every day citizens are stupid. We don't know what's best for us. What's best for our state for our fellow neighbors and friends, but you're wrong politicians don't know you are 100% out of touch with everything going on around you Democrats have basically destroyed the state of Oregon you cannot tell me that in your soul, you don't see how horrible the state has become and then you want to change out the state those things you want to take the voice of the people away we signed a petition saying we wanted it on the November election. But has Democrats you say no we know better than you. It needs to be on the main election ballot. Why don't you stop playing games with everyone grow a pair and do what's right keep it on the November ballot pay. The main primary does not draw nearly the voters that the November election will and you know that. It is yet again another attempt to push something through that Oregon doesn't want. As most families in Oregon and most people in the world, we have to budget we budget daily we budget monthly. We don't get to just double dip take more from everybody else to pay our bills there's other ways around this. It's just not the way you as Democrats want to do it leave the measure on the November ballot.
