

This testimony is addressed to the Oregon Senate Health Committee regarding SB 1598.

I, Sarah Millard, stand opposed to SB 1598.

Ever since the year 2020 and covid-19, Oregonians have seen first hand why their government should never have any authority over the healthcare decisions of the people. All state health committees must be disbanded. Any Oregon laws or statutes regarding healthcare must be annulled. The Oregon Health Plan and other such government programs must be stopped. The level of coercion during this has been unprecedented and still no one has been held accountable for their criminal actions for the lives that have been lost and permanently damaged.

Stop trying to pass legislation like SB 1598 that:

1. Grants broad power to unelected public health officials to make decisions affecting all of us, without further legislation or public debate.
2. Clears the way for vaccine requirements to affect access to schools — without another legislative vote.
3. Invokes statewide one-size-fits-all medical orders without individual consent.
4. Compels insurance companies and taxpayer-supported public programs to pay in full for vaccines and health services. These programs should also be stopped.
5. Removes the ability of doctors to make decisions in the best interest of their patients.

All the socialist actions listed above have no place in our constitutional republic.
