On Behalf Of:

Committee: Joint Special Committee On Referendum Petition  
2026-302

Measure, Appointment or Topic: SB1599

I am one of the 250,000 people who signed the petition that very specifically stated the purpose was to put the ballot measure up for a vote of the people in November 2026. If there was a chance this date could change than why wasn't that included on the paper I signed. This is not democracy and just shows when Kotek doesn't get her way, she tries to prevent enough time for people to sign petitions, then tries to repeal and throw out the whole bill which had some good things and now just change the rules. This is the type of behavior you teach your children growing up not to do. This is just another example of how Kotek and the democrats don't actually care about all working people. They only care about the poor and homeless and want to keep talking from the middle working class so that pretty soon we won't have a middle class. We will all be in the poor category. I highly oppose moving this to the May election. It is not right and not what I signed.
