Measure, Appointment or  
Topic: SB1599

- 1) Why is there no Open Government Impact Statement?
- 2) This is a committee made up of supporters of the Governor's attempts to avoid the political consequences of hold in a vote on the referendum at the same time that many influential Democrats are on the ballot. It is a blatant political move to avoid those consequences; and
- 3) This is an attempt to take advantage of historically low voting turnouts during primary election season, so as to avoid the political ramifications of a larger turnout in the fall elections.

I submit that this is shameful and not representative of open government.
