Born and raised in our State and I am extremely upset with the current administration's actions in regards to the devious attempt to push this horrible and detrimental bill to an earlier election then the citizens have signed for as stated in the approved initiative petition. In my understanding this hearing is an attempt to disregard and discourage any and all future initiatives from gathering support from Oregon voters. Not to mention I think it violates the rules governing the initiative process. It needs to be left in its current form to be voted on in the General election by the Citizens ballot. This concerns everyone in this state no matter the political party.
