Measure, Appointment or Topic: SB1599

The current Oregon Legislation has been looking for ways to totally destroy Oregon and its citizens. If they were doing their jobs you would be looking at cutting spending especially items that do not promote health and welfare of the CITIZENS. Wasteful spending has created this problem. Get off your duffs and fix it now. We can not afford a gas tax this will only make more taxpayers and businesses leave and destroy what little economy is left that you have created. NOGAS TAX.
