

To whom it may concern:

This state has been ruined! The last two Governors have destroyed our economy, the well being of it's citizens, has taken matters into their own hands and has literally taken political views that satisfy only their needs, and not others, into their own cognisance. These decision have been one sided for too long and what needs to happen is the Oregonians need to start making those decisions instead.

This SB1599 was petitioned and signed by OVER 250,000 Oregonians to make sure yet another TAX was not being stuck to the hard working Oregonians. Since I have lived here, we went from a once beautiful, very productive state, to trash filled, water drained, burnt forest lands and homeless beyond our control. The people you are hurting are the ones who work the hardest, and that's the middle class. You have run big businesses out of this state because of the overwhelming taxes that you have already composed onto them and many many Oregonians have moved out of this state because of the one sided politics and the abundant taxes. No one can afford to live here anymore!

The ONLY reason she wants this bill on the May ballot is because there isn't a lot of outcome and her hopes are to pass it because she is looking for the next great fix for her agenda! Tina Kotek has been a scoundrel from the start. She started out quiet and meek in the beginning and then the rodent came out! Sneaking around quietly accessing her next target, and once she did, it has been nothing but chaos.

The hard working Oregonians that spent hours and days to get the petition signed did so in faith that we would be able to stop her in her tracks. Do not allow this bill to be tossed in a corner, do what the people have spoken loud and clear for and put this on the November ballot next to her name so the people will know that if this woman is elected again, she will try her stunts again, but in a different way! She will not stop until she gets what she wants.

We the people of Oregon want this on the November ballot!
