Measure, Appointment or
Topic: SB1599

I am VERY OPPOSED to moving the date to the primary in May. When I signed the petition it was listed to be held for the people's vote in the November general election. I took great effort to get to the recall site to sign: I require oxygen (24/7 6-8 flow rate) to breath—this requires the very large tanks to be loaded in my vehicle in order for me to travel from my home. I certainly do NOT appreciate the current administration attempting to hide their careless self-motivated tax INCREASES on Oregon taxpayers who thought they were being heard that we are sick and tired of this out of control taxation and spending.

YOU need to START listening to what your constituents tell you about how you are destroying the Oregon we love. You can START be stopping all of your blatant disregard of the people.
