

Submitter: Michelle Bui
On Behalf Of:
Committee: Senate Committee On Health Care
Measure, Appointment or Topic: SB1598
Members of Senate Committee,

After experiencing the unchecked authoritarian controls by unelected bureaucrats over our healthcare decisions during the covid era; I am astounded that you would attempt to pass bill SB1598. Allowing anyone outside of the individual and family members to decide what medical interventions are right for them is next level communist control. Your job is to PROTECT our INDIVIDUAL FREEDOMS ordained by God and embedded in the US Constitution. That means a one size fits all medical mandate approach using "public health" as the delivery mechanism is antithetical to our basic human rights. To make matters worse, this bill compels insurance companies and taxpayer supported public programs to pay in full for vaccines and health services. This is simply a way to rob taxpayers and enrich pharmaceutical companies, insurance companies and politicians. We've had enough of government intervening in our healthcare decisions. It has cost us dearly and that was made obvious during the last 5 years. This bill is ANTI-medicine and would result in allowing government and unelected bureaucrats (working hand in hand with big corporations like pharmaceutical companies) to take total control over our personal health choices. It overrides our doctor's advice, has no care for the lifestyle we live, and should we be harmed by the mandated interventions.....there is no recourse or accountability. This bill SB1598 is vile and I strongly URGE you to oppose it immediately. Your thirst for POWER over the people is disgustingly obvious at this point. For once (since Democrats have had a majority because they cheat in elections) DO THE RIGHT THING and vote NO.
