Oregon voters overwhelmingly voiced their wishes that the egregious Transportation bill be placed on the November ballot for citizens/voters to vote on. Governor Kotek thinks she can manipulate the outcome to her advantage by attempting to move the already certified referendum for the November general election to the May primary which historically has lower voter turnout and can deflect any negative reaction that may affect her bid for re-election in November. Governor Kotek believes that Oregon voters are ignorant and won't see what motivates this move. Your actions today are on display and Oregonians are watching! Stop this deceptive action and kill SB 1599 today!
