SB1598

I strongly oppose SB 1598. It is wrong to eliminate accountability. With unchecked authority and forced compliance, informed choice is weakened. This will add to already high insurance costs. My supplemental health insurance monthly premium just jumped over \$50 a month for 2026! That equates to another \$600 per year which is too much given that I am a retired senior! Raising my health care costs presents a financial burden. With the new increased health insurance I pay \$194 per month from my income. These increased costs rob my monthly fixed income. Stop this bill please.
