To the Oregon Joint Special Committee on Referendum Petition 2026-302

RE: Senate Bill 1599

I OPPOSE the proposed change of the election date of the voter-qualified gas tax referendum.

Hundreds of thousands of Oregonians made their voices heard in their desire to have the referendum placed for a November vote.

It sure would be decent and respectable to those said voters if you were to uphold the constitutional oath you made to them when you took office, and truly represent their interests instead of your own.
