Committee: Senate Committee On Health Care

Measure, Appointment or Topic: SB1598

As a trained health professional, I strongly oppose this bill. Oregon's health officials have completely forgotten medical ethics. It is authoritarian to coerce patients, and the public, into receiving medical treatments. During covid, many of us could see how health departments became drunk on ego and power, and ignored the rights of individuals to make their own health choices. I have no longer have faith in the OHA and health departments to do the right thing; therefore, they should not be given MORE power.
