Topic: SB1599

I want you all to know that as elected officials you are obligated to do what is in the best interest of the Oregonians in your area. It appears that is not the intent of this proposed change. Given your lack of consideration for your constituents when you voted and passed the law which spurred the voters of Oregon to drive Referendum Petition 2026-302, it would serve you well, politically, to refrain from advancing agendas that give any perception of further eroding the diminishing trust the voters of Oregon have in you.

Consider what the people of this state want and act accordingly.

The level of taxation in this state is far greater than the services used or needed. If I have to change my spending habits, then so should my state and its elected officials.
