

Submitter: Karen Fryefield

On Behalf Of:

Committee: Senate Committee On Health Care

Measure, Appointment or Topic: SB1598

I am a practicing pediatrician in Oregon, and I strongly support SB 1598. Removing unnecessary barriers like individual prescriptions for routine vaccines will make it easier for families to keep their children protected, especially those with limited access to primary care. Standing orders through pharmacies are a safe, evidence-based way to improve vaccine access and prevent delays in care. This bill will protect my patients and the health of our community.
