

Submitter: Bruce Birk
On Behalf Of: Bruce Birk MD
Committee: Senate Committee On Health Care
Measure, Appointment or Topic: SB1598

It is very important that our patients continue to have full access to all vaccinations recommended by the american academy of pediatrics. My families have repetitively expressed concerns that they would not have this access. It has been a confusing time for families seeking to vaccinate. Please continue to ensure that infants and children are well protected.

Sincerely,
Bruce Birk, MD
Pediatrician.
