I am very strongly opposed to SB1598. This takes away my rights as an individual citizen to work with my conscience and my doctor regarding what is best for me health-wise or to apply dictated financial consequences. I have had anaphylactic shock 3 times in the last 12 months from foods I used to be able to eat. If you think you can dictate what is put in my body, you essentially risk killing me. And you should be held accountable for my death. More importantly, I have written a Religious Exemption which needs to be honored, rather than discounting my rights.

Additionally, I see that Oregon officials seem to want to block vote with Western states. This is not how our government works. We Oregonians get to vote and to petition our elected officials, not just be discounted because 4 states have decided that you wish to exert power in a certain way, regardless of each state's citizen choices.

I am seriously concerned at what appears to be entirely unconstitutional, and it is 100% AGAINST my wishes. Please VOTE NO!!
