

Submitter:

Barbara Wirth

On Behalf Of:

Committee:

Senate Committee On Health Care

Measure, Appointment or Topic:

SB1598

I am speaking out against SB1598.

My body, my choice! Medical decisions should be made by an individual of legal age or the parents of an underage child after their own research and consultation with their medical provider. The state has no business in an individual's medical choices, especially unelected public health officials. Oregon and the Oregon Health Authority's response to Covid and the Covid shots was a disaster and we should never allow that to happen again. Medical interventions should never be forced on the citizens of a free country. We must have Informed Consent and Health Freedom in every state of this great country. For those who think differently, you should never have any authority over the rest of us.
