Greetings Joint Special Committee Members,

I oppose moving the election date to the primary election.

Even though Governor Kotek expected to cause the signature gathering effort to fail by delaying putting her signature on Referendum Petition 2026-302 until the very last minute, she was not prepared for the outcry of Oregonians. The people of all parties have clearly spoken that they do not want this Gas Tax by reaching an astounding 250,000 signatures in a few short weeks. In fact, the people do not want her as Governor but she slithered out of that effort as well.

We are getting taxed to death and she wants more, more, more. Tolls, Gas Tax, Property Tax etc. etc. etc. Enough is Enough!

This was already certified for the November election. It is a done deal. There is no point in jamming up the legislative session with something that has already been determined.

Thank you for your consideration.
