Hello Senators -

I was not only a signer of the no tax referendum petition, but I collected hundreds of signatures. As I was collecting I made sure to let folks know that signing was only the first step and they would still need to vote in November 2026 on the ballot measure.

If you move this to the May election then I have been a liar to all the voters that signed the petition. YOU have compromised my integrity with hundreds of voters I spoke with. You in a round about way would be lying too. The petitions clearly stated Nov. 2026.

I am disappointed that this has even come to be an issue. I ask for you to stand with integrity and Vote NO on SB 1599.
