The election date for Referendum Petition 2026-302 should not be moved from the general election in November to the May primary.

I vehemently oppose the authoritarian democrat bill SB1599. It is an affront to we the constituents who made our voices known by adding our signatures to the referendum petition refuting the proposed gas tax increase.

By political chicanery not for the concern of an emergency do our elected officials use their power plays against the people of this state, using subterfuge to fleece the taxpayer and maintain power by any means necessary.
