

Submitter: Kimberly Rice
On Behalf Of: Medical Freedom
Committee: Senate Committee On Health Care
Measure, Appointment or Topic: SB1598

I'm writing to oppose SB 1598. My sentiments align with the in person testimony that Dr. Julie Glass gave today. It is imperative that medical decisions remain between the patient and the doctor. It is also imperative that parental rights are upheld.

This bill is dangerous in that it gives too much power to unelected bureaucrats and disturbs the patient - doctor relationship.

Vote no on SB 1598.
