

Submitter:	Mike Slagle
On Behalf Of:	Dr. Frankenstein
Committee:	Senate Committee On Health Care
Measure, Appointment or Topic:	SB1598

I strongly oppose SB1598. We should never allow an elected official or NGO determine Healthcare for the citizenry, especially school children. You passed HB2002 that took parental rights away and now you want to expand that power. This is a dangerous bill to require medical treatment with no consent, especially vaccines that families may not want in their children. The family and their doctor should decide what is best for their Healthcare, not a government agency. Please use common sense and stop experimenting on children. Please vote no on this bill.
