Measure, Appointment or Topic: SB1598

Dear Members of The Healthcare Committee,

While I'm not opposed to seeking coverage for additional preventative care I am strongly opposed to SB1598's aspects that would impose an unprecedented government overreach.

SB1598 gives unchecked authority to unelected public health officials to make decisions affecting all of us, without further legislation or public debate. It overrides doctors and removes the ability of doctors to make decisions in the best interest of their patients.

SB 1598 clears the way for automatic medical mandates which affects access to schools — without another legislative vote or public input.

SB 1598 creates forced state-wide compliance by invoking a one-size-fits-all medical orders without individual consent. This is authoritarian and certainly not democratic.

Please rework this bill to remove the above stated concerns.
I'm urging you all to vote NO on SB 1598.

Thank you for your consideration.

Angela Pederson
