Committee:

Senate Committee On Health Care

Measure, Appointment or Topic:

SB1598

Kiddos and families need access to vaccines to stay healthy. Without vaccines, diseases like measles and pertussis will increase even more than they already are. Diseases like these can cause exclusions to students who are unvaccinated or under immunized with or without a medical/nonmedical exemption; they won't be able to go to school thus parents will not be able to work. We support vaccines and access for families.
