

Submitter: Sheri Winters

On Behalf Of:

Committee: Senate Committee On Health Care

Measure, Appointment or Topic: SB1598

Dear Senate Committee on Health Care,

I am asking you to vote no on this bill. Government has no business making personal health care decisions or mandating any specific treatments for adults or children.

Medical decisions should remain between a patient and their doctor. In the case of a minor, the parent is the one with the jurisdiction. They should not be mandated or expanded through state authority. One size fits all policies fail to account for individuals medical history, risks, or informed consent. Public trust in medicine is built through transparency and choice, not coercion. This bill is a government overreach that will cause harm.

I strongly urge you to VOTE NO on SB 1598.
