Moves the election date for the parts of chapter 1, Oregon laws 2025 ( special session) referred to the people by referendum Petition 2026-302, to the primary election held on May 19, 2026. We The People are exhausted with taxes on gas, electricity, etc. I think we're also exhausted with a secondary Kate Brown for Governor using the name Tina . Between Trump and Tina, the people can't get a break! We can't afford to pay our bills and eat too. How many more homeless people do we need on the streets? We can't take care of the ones we have now and our veterans shouldn't be on the streets period! Tina wants to give us a gas tax so we can't afford to not only drive our cars, but also we have to worry about loosing jobs. Not being able to afford to pay for insurance on our cars, etc. Raise the taxes on gas, loose all the extras that come with that. I completely oppose this gas hike. It's going to ruin more great, hard working people and for what reason? So she can add more money to her pockets or to help the Illegal immigrants? I don't care what side does with her own money from her own pockets as long as she's not destroying everyone else's livelihoods.
