

Submitter:	Gwynn Roberts-Klinck
On Behalf Of:	Myself
Committee:	Senate Committee On Health Care
Measure, Appointment or Topic:	SB1598

With all due respect, no governing body has the right to tell anyone how to live, including how to treat their own body. Vaccines are an assault to a natural immune system. God gave us a perfect immune system that NO ONE has the right to assault. In my youth, I got sick every time my parents gave into pressure for vaccines, especially flu vaccines. When I became of age, I stepped away from conventional methods and my health miraculously improved. I will NEVER have another vaccine! Time has proven the best teacher of what we have been taught, or should I say, been lied to, about vaccinations. I will NEVER have another for as long as I live. The medical industrial complex cannot be trusted. They are liars and are only concerned with how much money they can make. Ask me how I know! It is not for the government to decide how an individual handles their own body...it is only for the individual to decide how they choose to live in the peace they choose for themselves.
