

Submitter:

Megan Hurley

On Behalf Of:

Committee:

Senate Committee On Health Care

Measure, Appointment or Topic:

SB1598

This will only harm innocent people who have the fundamental right to decide what goes into their own bodies. There is no public health crisis that justifies this action. And even if there were, forced experimental immunization violates the freedoms protected by the Constitution. Government overreach does not become acceptable simply because it is labeled “public health.”
