

Submitter: Nancy Holmes

On Behalf Of:

Committee: Senate Committee On Health Care

Measure, Appointment or Topic: SB1598

This bill SB 1598 will keep kindergartners from having measles and two year old from having whooping cough. I simply do not understand why there is opposition to healthy children in day care and school classrooms across the state. Has the opposition to this bill ever had to care for sick kids, sick babies? Please pass this legislation so that children can go to school, and mothers and fathers can go to work and we can continue to have healthy Oregon communities. Support and vote yes on SB1598.
