Senate Committee On Health Care

Measure, Appointment or Topic:

SB1598

I am against a government provided "Health Officer" to issue a "standing order" to provide treatment to the public and be able to make the rules necessary to do so. This is government forced health care and is completely unacceptable. Stay out of the people's lives, people choose for their own needs, not have government decide. You are using fear to usurp ever more control over the citizens in a constitutional republic. This is some evil shit you are coming up with, and you and your cohorts should be nowhere near a position of law/rule making for the public. Please resign immediately.
