

Submitter:

Jerome Boettner

On Behalf Of:

Committee:

Senate Committee On Health Care

Measure, Appointment or Topic:

SB1598

I am writing to strongly oppose SB 1598 for the following reasons:

It grants power to unelected public health officials to make health decisions without legislation or public debate.

It makes possible vaccine requirements for school children without legislation.

It makes possible statewide medical orders without individual consent.

It compels insurance companies and tax-supported programs to pay in full for vaccines and health services.

It removes the ability of doctors to make decisions in the best interest of their patients.

Thank you for your consideration,

Jerome Boettner
