

To Oregon Demoncrats: SB 1599

Knock off the BS (SB backwards)! Quit trying to shove gas taxes, anti-constitutional gun bills, kicker-tax theft, or any other additional tyrannical tax, down Oregonians' throats! You need to listen to the People of Oregon for a change. Oregon has pretty much been destroyed by you people for the past couple decades, and it needs to stop, or you will lose every election from here on out. We've had it with your nonsense! SB 1599 is yet another attempt to silence the majority of Oregonians and subvert the rule of law. Keep it up, and your power will dissolve altogether. Try living within your budget, like the rest of us, instead of resorting to outright thievery and pure sneakiness. Go back to church and get a grip on your morals, and the lack thereof. As a senior citizen, on a retirement budget that doesn't keep up with inflation, I implore you to search your seemingly heartless souls and do the right thing. Start dismantling the unnecessary bloated bureaucracy of ODOT, and every other public entity. It's really simple - adhere to a slimmed-down budget - that's what responsible people in leadership are supposed to do. Please - stop this insanity, and quit wasting your time and our money! Remember, you are a public "servant," not a public "tyrant." Thank you
