Measure, Appointment or
Topic: SB1599

I support passing this measure. Our state needs this passed. With the loss in federal funding, our state needs to step up and support ourselves. Electric vehicles need to pay their fair share as well. Our communities deserve road maintenance. Please pass the measure so that our communities will have safe roads to travel and better public transportation. Maybe consider a sales tax to further tax visitors to our state if people are going to continue arguing about supporting the aging infrastructure of the state. We can't rely on federal government anymore.
