Brenda Schweitzer

On Behalf Of:

Committee:

Senate Committee On Health Care

Measure, Appointment or Topic:

SB1598

As a long time Oregonian medical freedom and informed consent is critical to me. I have been an RN for 15 years and worked in Oregon Hospitals my entire career. After working in the hot zone all during the Covid pandemic and watching the bad decisions made from a political stand point rather than from medical expertise, I would think we would have learned our lesson. Today, I still am working with patients who were vaccine injured to the point of not being able to work any longer. Young people who had life plans and goals that have slipped through their fingers due to mandates that they felt they had no choice over and a very poorly researched vaccine that was forced upon them.

Please do not make this mistake again! Oregon needs to stand out as a state for freedom of choice based on science not politics. As a professional RN I strongly oppose SB 1598.
