

Submitter: Rebekah Spencer  
On Behalf Of:  
Committee: Senate Committee On Health Care  
Measure, Appointment or Topic: SB1598

So the last mandate murdered 5 family members and made 2 very sick. My dad, brother, husband , his dad and uncle all died shortly after receiving Covid vaccine. My dad was in Kaiser hospital emergency. We were on our way home. When they gave him one thing that made him vomit until he died. He was murdered.

I was recently in the emergency room for infection and had to train the nurse practitioner how to anesthetize and incise and drain.

Very rarely are hospitals healing anyone. Just make patients more sick, mask symptoms or murder them.

Covid was great example...how many doctors were blackballed for not obeying the government. Yet alternative treatments saved many. How many patients were murdered with ventilators combined with meds known to shut organs down.

Return power back to the people. Free our doctors to be community doctors. Stop over regulating and charging fees to renew licenses. Stop allowing frivolous lawsuits against them. Stop forcing them to prescribe within the pharmaceutical industry.

May God help us in Jesus name. Stop forced vaccines of our children. Stop the perverted agenda of gender confusion. I will leave vengeance to God, but I do not support any more power to the government for control of our health decisions.
