SB1598

Hello, I strongly oppose any proposed legislation that would alter, interfere or override the nature of a doctor - patient relationship. I appreciate that my freedom to choose what medical advice, medications, procedures and products remains between me and my own physician. The state has no business mandating any medical product or procedure. Allow trained doctors to remain the trusted source for advice and counsel regarding personal medical decisions, not the state's elected officials, the unelected OHA or any other party.

Thank you,

Veronica Darling
