

Submitter: Mark Poorman

On Behalf Of:

Committee: Joint Special Committee On Referendum Petition  
2026-302

Measure, Appointment or Topic: SB1599

The people spoke loudly by signing this initiative with far more signatures than were required. The initiative indicated the vote would appear in the general election, and this measure is an attempt to circumvent the people's voice. Forcing this measure through is an attempt to circumvent the wishes of the people for political manipulation only. A political party that ignores the wishes of the people will find themselves facing an angry electorate, eventually reaching a tipping point that can make major changes in the direction of government. I only hope if this misdirected bill passes, it will be successful in igniting the anger of the people.

I strongly oppose this bill. Vote NO on SB 1599
