

Submitter: Christen Danford
On Behalf Of:
Committee: Senate Committee On Health Care
Measure, Appointment or Topic: SB1598

This bill is abhorrent. Since when does our local Government attempt to shove us into a position where we must accept what unchecked authority has been given to unelected public health 'authorities.' I am against automatic mandates by unelected officials. Informed Consent is a STAPLE to good client care in any patient/provider environment and providers must have the ability to make choices on the best courses of action when treating a patient, regardless of age. Humans are not a one size fits all and any type of healthcare is not a one size fits all either. We will not be placed into a box or herded to the next stall like cattle. I strongly oppose this bill and it should not be passed. Immunity should not be granted to anyone in any position of power. We saw how well that worked with Big Pharma. This is the definition of Government overreach; Intrusion into individual rights by any type of Government. Do not pass this bill.
