

Submitter:

Aaron Dunn

On Behalf Of:

Committee:

Senate Committee On Health Care

Measure, Appointment or Topic:

SB1598

As a concerned citizen, I whole heartedly support SB 1598, especially after hearing of measles cases in our state and the impact outbreaks have had in other states over the past year.

Vaccine access supports the health of our communities and should not be subject to barriers and delays. We need our state to be able to act nimbly when an outbreak does occur, using all of their tools to support a quick and effective response. Please vote yes on 1598.
