SB1598

I strongly oppose SB1598 and I hope you will too. The government has no business getting involved in personal healthcare decisions or in requiring specific treatments. Those decisions are between the doctor and the patient. The one-size-fits-all medical model overrides informed consent and medical freedom and is extreme government overreach. Confidence in our health institutions has dropped significantly since COVID and a bill such as this one will only erode it further. Please vote NO on SB1598.
