On Behalf Of:

Committee:

Senate Committee On Health Care

Measure, Appointment or Topic:

SB1598

My name is Quinn Ellingsen, and I support vaccine access.

My name is Quinn Ellingsen and I work directly with Oregon students with profound disabilities. Often my students are medically fragile and they rely on their family, teachers, and staff to be fully immunized in order to protect them. Passing senate bill 1598 would make it easier for those who can get vaccinated to do so. It's up to the community to protect the most vulnerable among us. Without this bill, we could see many more barriers to vaccine access which is a bad thing for everyone. Thank you.

Please pass Senate Bill 1598.
