Dear Senators,

Please vote NO on SB 1598. While "healthcare access" sounds good, giving authority to unelected public health officials is a threat to medical choice, bodily autonomy, parental authority, and doctor/patient relationships. Read it carefully! This bill could lock in rules and pave the way for future mandates without legislative processes and votes by "we the people" . As of this writing, 71% of these testimonies oppose this bill. It is your job to listen to your constituents.
